## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1- 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Haberl et al (US # 4,266,263). Haberl et al discloses the claimed invention including a flexible mat (Col. 1, lines 5-13; Col. 9, lines 59-67) and an embodiment consisting of multiple non-flexible measuring cells (Col. 10, lines 3-16).

**Conclusion**

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The other references cited show foldable weighing mats or flexible potentiometers.
